MINIRIG MINI & MINIRIG

WHAT ARE THE BUTTONS FOR?

Toggle between high and low gain settings, Low gain is perfect for those quiet movie moments and high gain is for when you really get into the music!

AUDIO CONFIGURATION STEREO MODE

STEREO MINIRIGS WITH ONE SUB

This is the standard setup, stereo Minirigs, Left channel coming out the left speaker, right channel coming out the right speaker with mono sum bass.

STEREO MINIRIGS WITH TWO SUBS

This is for those who like to have extra bass, left channel coming from left speaker and sub, right channel coming from right speaker and sub.
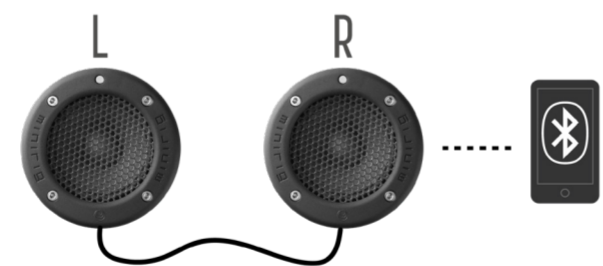

MONO LINK UP MODE

Mono link up mode is left and right coming out of all speakers, this is perfect for big link-ups!

AUDIO CONFIGURATION STANDALONE MODE

This mode lets you play right & left channels through the Minirig 3 and Subwoofer.

This mode lets you use your Minirig 3 speakers in strereo using bluetooth and one audio standard cable.

This means the Minirig is now muted, perfect for stopping the music. When muted you can use the Minirig Mini as a headphone receiver.
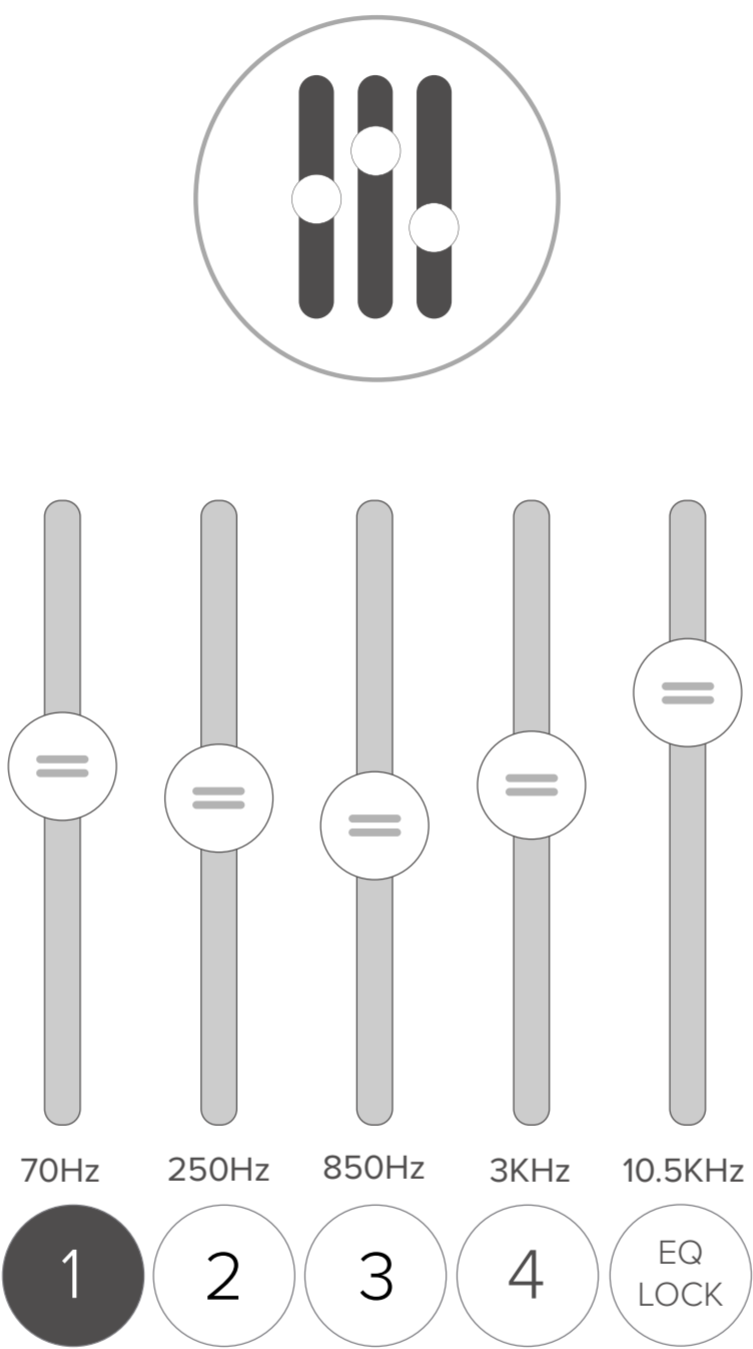

The speaker is not muted when this is shown.

Connect two phones via Bluetooth and decide who's playing music using the A/B mode, great for going B2B with your friends

CUSTOMISE YOUR SOUND

| 70Hz | 250Hz | 850Hz | 3KHz | 10.5KHz |

1 2 3 4 EQ LOCK

Customize your sound with the Minirig EQ, pick the frequency you would like to turn up or turn down and simply move the slider to where you want it to be.
